

MAR·CO 
make it unique

E-Motion 44: The New MAR.CO icon

For over fifty years, MAR.CO has been designing custom RIBs that combine exclusive quality, Italian design, and uncompromising performance. We are a family-run company based in Muggiò, just north of Milan, and we have always poured passion and craftsmanship into every detail to create boats as unique as those who choose them.

It is in this spirit that the E-44 was born: MAR.CO's largest model ever and the first to feature two completely separate cabins. Designed for those seeking space, comfort, and functionality without sacrificing performance and sporty character, the E-44 blends impressive volumes with refined technical solutions and bespoke finishes.

From interiors meticulously crafted in every detail to countless customization options, every element is designed to turn life on board into an exclusive experience, direct expression of MAR.CO's DNA and our promise of excellence.

E-MOTION 44
